

## **Kirant Indigenous wishes from Nepal for the International Day for Biological Diversity 2022**

- For Indigenous Peoples, Mother Nature is alive and respected, important for cultural survival, and is spiritual.
- **Indigenous science and values harmony with Mother Nature Should be Recognized and be Respected on the [post-2020 Global Biodiversity Framework](#) and in vision 2050.**
- Diversity of Bioculture and Customary Law for the Function of Traditional Knowledge, indigenous and local knowledge of IPLCs on biodiversity Conservation are the indicators for the post-2020GBF.
- New and Emerging issues such as LMO contain engineering gene drive, Horizon scanning, Synthetic Biology, DSI must have in regulatory mechanism in respect to the human rights of IPLCs.
- Wild species, foods, medicine and Promotion and Implementation of Socio-economic Consideration ([Cartagena Protocol on Biosafety Article 26](#)), [Synthetic Biology Technical Series 100](#), Full and effective engagement of Non-state Actors including IPLCs, Women and Youth from IPLCs to achieve the Commitment Nature and Culture by 2030.
