The background is a vibrant red with a subtle gradient. On the left, a large, bright yellow circle with a white center, resembling a sun or a light source, is partially obscured by a vertical yellow line. To the right, there are several overlapping translucent circles in shades of orange and yellow, creating a sense of depth and movement. The overall composition is abstract and energetic.

A thin vertical yellow line runs through the center of the image. within my self

A satellite view of Earth from space, showing the African continent and the Middle East. The landmasses are illuminated by a warm, yellowish light, possibly from the sun being low on the horizon. The surrounding oceans are dark blue. The image is taken from a high angle, showing the curvature of the Earth. In the top right corner, there is white text that reads "I can transform my impact".

The surrounding oceans are dark blue. The Earth's curvature is visible at the top and right edges. The background is black space with some distant stars.

A person's hands are visible at the bottom, holding a large, weathered wooden plank. The plank is held vertically and features a vibrant, multi-colored rainbow painted across its upper half. The rainbow's colors are red, orange, yellow, green, blue, and purple. The wood itself is aged, with visible grain, knots, and some small holes. The background is a soft, out-of-focus sky with light clouds. The text "and create" is superimposed in white, sans-serif font on the right side of the plank.

A close-up photograph of a dandelion seed head. The seed head is on the left, with its green stem visible. The seeds are white and fluffy, and several are shown in mid-air, floating away from the head towards the right. The background is solid black, making the white seeds stand out.

When I
change

The image shows two traditional wooden sandals, possibly from a tropical region, resting on a light-colored stone tile floor. The sandals are made of dark wood and feature a wide, flat sole with a textured, scale-like pattern. Each sandal has a simple, rounded wooden heel and a small, cylindrical wooden post or peg attached to the side. The sandals are positioned diagonally, with one in the foreground and another slightly behind it. The lighting is soft, highlighting the natural grain and texture of the wood.

When I
change

the world
changes

We are all creative, with an infinite palette of ways of caring for our world. In using our individual talents and abilities, we can help re-establish the global balance that is essential to life. It is up to each of us to think, question and take action to achieve the future we desire and, to live a more beautiful, more promising world than the one we inherited.

From awareness to action:

A new mindset for biodiversity values.

How can we make biodiversity a priority for everyone? Awareness for the loss of biodiversity and its future impact without doubt increasing. How can we change our mindset and transform inner barriers and resistance?
